STATEMENT OF OBJECTS AND REASONS

The Indian Nursing Council Act, 1947 was enacted to constitute the Indian Nursing Council in order to establish a uniform standard of training for nurses, midwives and health visitors. Though the said Act was enacted to provide a solid foundation for the growth of nursing education, it has not kept pace with time. Since 1947, the said Act has undergone minimal amendments which have enabled limited growth of the profession.

2. Nurses, who comprise the greatest number of healthcare providers, are the backbone of health systems. A flexible and well-functioning legislative framework underlying nursing and midwifery education is essential for redefining the role and scope of nurses and for providing distinct recognition to midwives in the country.

3. The Department-related Parliamentary Standing Committee on Health and Family Welfare, in its One Hundred Ninth Report on the National Medical Commission Bill, 2017, had recommended that the Department should explore the possibility of restructuring and revamping the Dental Council of India, the Indian Nursing Council and other such Councils so that there is effective regulation of their education and practice.

4. In pursuance of the said recommendation, a draft National Nursing and Midwifery Commission Bill was prepared and a seven-member Expert Committee was constituted by the Government in July, 2020, to examine the same. The Expert Committee, after in-depth examination, gave its report in August, 2020, recommending for establishment of a National Nursing and Midwifery Commission in place of the existing Indian Nursing Council. Based on the recommendations of the Expert Committee, and after extensive consultations and deliberations with NITI Aayog, the general public, State Governments, State Councils, professional associations and other relevant stakeholders, the Government proposes to establish a National Nursing and Midwifery Commission in the place of the existing Indian Nursing Council by the proposed legislation. The proposed legislation would bring in nursing and midwifery professionals of the highest stature and calibre though a fair, transparent and qualitative process.

5. Accordingly, it is proposed to introduce the National Nursing and Midwifery Commission Bill, 2023, which, inter alia, seeks to provide for—

(a) constitution of a National Nursing and Midwifery Commission for development and regulation of all aspects relating to nursing and midwifery education, institution and profession, and a Nursing and Midwifery Advisory Council to advise and make recommendations to the National Commission;

(b) constitution of three Autonomous Boards, namely,—

(i) the Nursing and Midwifery Undergraduate and Postgraduate Education Board, to regulate nursing and midwifery education and examination at undergraduate level and postgraduate level and to determine standards thereof;

(ii) the Nursing and Midwifery Assessment and Rating Board, to carry out inspections and to assess and rate the nursing and midwifery institutions; and

(iii) the Nursing and Midwifery Ethics and Registration Board, to regulate professional conduct and promote nursing and midwifery ethics amongst all registered professionals and to maintain a national register of nursing professionals, midwifery professionals, nursing associates and midwifery associates;
(c) a uniform mechanism for admission into nursing and midwifery institutions at undergraduate and postgraduate level;

(d) a mechanism, either through a final year undergraduate examination or otherwise, for enrolment in the National Register or the State Register, as the case may be, and for granting license to practice as a nursing and midwifery professional;

(e) permission for establishment of new nursing and midwifery institution, for starting postgraduate or higher qualification course and to increase number of seats to be obtained by nursing and midwifery institutions;

(f) recognition of nursing and midwifery qualifications granted by Universities and nursing and midwifery institutions in India and outside India, and also for recognition of nursing and midwifery qualifications granted by statutory and other bodies in India;

(g) maintenance of an online and live National Register containing the name, address, all recognised qualifications possessed by a nursing professional, midwifery professional, nursing associate and midwifery associates;

(h) constitution of a National Nursing and Midwifery Commission Fund for crediting all fees, penalties and charges received by the National Commission and the Autonomous Boards;

(i) repeal of the Indian Nursing Council Act, 1947 and for dissolution of the Indian Nursing Council by providing that on such dissolution,—

(i) the President and Members of the said Council shall be deemed to have vacated their respective offices and shall be entitled to compensation not exceeding three months’ pay and allowances;

(ii) the other employees employed on regular basis by the said Council shall continue their services for no longer than one year as an interim arrangement, and thereafter, further continuity shall be determined by the National Commission on the basis of their performance appraisal or evaluation.

6. The Bill seeks to achieve the above objectives.
