STATEMENT OF OBJECTS AND REASONS

A welfare Government is committed to ensure land and dwelling for all. The directive principles declared in article 39 of the Constitution of India includes the principle of policy that the ownership and control of the material resources of the community are so distributed as best to subserve the common good. As part of this, ensuring of dwelling place for all has also been included in the policy decisions of the Government. The Government has taken certain decisions for securing the policy for implementing this decision in the State way back in the year 2021. The Cabinet in the year 2021 has taken a decision in its first meeting to bring a legislation for protecting those persons and families who loses their single dwelling places due to attachment proceedings. The Government have also announced in the Governor's Address of the year 2022 that it aims to achieve the goal of providing 'land and housing for all' through convergence of resources and efforts of multiple Departments, Institutions and

Schemes and also to recognize the right of residence of citizen as a right.

As part of this, Government have decided to bring a legislation providing for preventing the situation where families are losing their single dwelling place through eviction on account of non-repayment of loans raised from financial institution functioning in the State by mortgaging such single dwelling place, for taking measures including protection of dwelling place of such persons and for matters connected therewith.

This Bill is intended to achieve the above object.

FINANCIAL MEMORANDUM

When the Kerala Single Dwelling Place Protection Bill, 2025 is enacted and brought into operation, it is estimated that an amount of rupees 10 Crore is annually required towards the Fund to be constituted under this enactment. It can be collected by the Government from various sources under clause 25 of this Bill. The amount to be received out of such sources includes government grants. It is not feasible to estimate the amount now. At present, when this enactment is brought into operation, it would not involve any non-recurring expenditure out of the consolidated fund of the State.
