- **Revenue expenditure** for 2024-25 is proposed to be Rs 2,61,644 crore, an increase of 13% over the revised estimates of 2023-24. This includes the expenditure on salaries, pensions, interest, grants, and subsidies.
- **Capital outlay** for 2024-25 is proposed to be Rs 61,633 crore, decrease of 8% from the revised estimates of 2023-24. Capital outlay indicates the expenditure towards creation of assets. Capital outlay in 2024-25 is estimated to be about 4% of GSDP.
- In 2024-25, loans given by the state are estimated to increase by 123% over the revised estimates for 2023-24. Debt repayment by the state is estimated to 41% higher than the revised estimates for 2023-24.

### State Owned Power Sector Units are in Losses

In November 2015, the Government of India launched the Ujwal Discom Assurance Yojana with the aim of reducing interest burden, cost of power, and power losses in DISCOMs. The Madhya Pradesh government entered into a Memorandum of Understanding with the state's DISCOMs and the Ministry of Power in August, 2016. According to this agreement, the state would take over debt amounting to Rs 26,055 crore (75% of the total debt of Madhya Pradesh DISCOMs) as of September 30, 2015 within five years.

By 2022, the state government had provided grants amounting to Rs 12,690 crore to cover the debt. As per Revised estimate of 2023-24, Rs 13,365 crore was given to cover the remaining debt. From 2017 to 2022, the Madhya Pradesh government took over the losses of Rs 3,795 crore from the Madhya Pradesh DISCOMs. In 2022-23 and in the revised estimate of 2023-24, no money was allocated to cover the loss of DISCOMs. In 2024-25, Rs 12 crore has been allocated for this purpose.

**Committed expenditure:** Committed expenditure of a state typically includes expenditure on payment of salaries, pensions, and interest. A larger proportion of budget allocated for committed expenditure items limits the state's flexibility to decide on other expenditure priorities such as capital outlay. In 2024-25, Madhya Pradesh is estimated to spend Rs 1,17,945 crore on committed expenditure, which is 45% of its estimated revenue receipts. This comprises spending on salaries (25% of revenue receipts), pension (10%), and interest payments (10%). In 2023-24, expenditure towards pensions is estimated to be 5% higher than the budget estimate. In 2022-23, as per actuals, 43% of revenue receipts were spent towards committed expenditure.

## Deficits, Debt, and FRBM Targets for 2024-25

The Madhya Pradesh Fiscal Responsibility and Budget Management (FRBM) Act, 2005 provides annual targets to progressively reduce the outstanding liabilities, revenue deficit and fiscal deficit of the state government.

**Revenue Surplus:** It is the difference of revenue expenditure and revenue receipts. A revenue surplus can be used to incur capital outlay or to repay outstanding debt. The budget estimates a revenue surplus of Rs 1,700 crore (or 0.1% of the GSDP) in 2024-25.

**Fiscal deficit:** It is the excess of total expenditure over total receipts. This gap is filled by borrowings by the government and leads to an increase in total liabilities. In 2024-25, the fiscal deficit is estimated to be 4.1% of GSDP. For 2024-25, the central government has permitted fiscal deficit of up to 3.5% of GSDP to states, of which 0.5% of GSDP will be available only upon carrying out certain power sector reforms.

As per the revised estimates, in 2023-24, the fiscal deficit of the state is expected to be 3.6% of GSDP. This is lower than the budget estimate. Fiscal deficit is projected to be lowered to 3% of GSDP by 2026-27.

**Outstanding liabilities:** Outstanding liabilities is the accumulation of total borrowings at the end of a financial year, it also includes any liabilities on public account. At the end of 2024-25, the outstanding liabilities are estimated to be 32% of GSDP, higher than the revised estimate for 2023-24 (28% of GSDP). The outstanding liabilities are projected to remain at 32% of GSDP till 2027-28.

**Outstanding Government Guarantees:** Outstanding liabilities of states do not include a few other liabilities that are contingent in nature, which states may have to honour in certain cases. State governments guarantee the borrowings of State Public Sector Enterprises (SPSEs) from financial institutions. As of March 31, 2024, the state's outstanding guarantee is estimated to be Rs 44,315 crore, which is 3.25% of GSDP in 2023-24.

### Actual allocation to Panchayati Raj Institutions (PRIs) was less

Based on the recommendation of the Third State Finance Commission (which was accepted by the State Government in February 2010) 4% of the divisible fund of the State Government is to be devolved to PRIs and 1% to Urban Local Bodies (ULBs).

Funds given to PRIs have been less than the amount to be devolved in almost every year since 2017-18. The difference between the actual devolution and the fund to be devolved was the highest in 2020-21 and 2021-22, due to financial constraints during the COVID-19 pandemic (see Figure 4).
